

## **SMALL DIFFERENTIAL FRICTION PIN HINGES A**

### **59-7-2003**

Small-sized differential friction pin hinges to hold a door or lid in position.

Cycle life: 30 000 cycles.

360° rotation possible. The product cannot be lift-off.

The highest friction torque is obtained during counterclockwise rotation.

Operating temperature: -20°C / +70°C.

|                    |                 |
|--------------------|-----------------|
| Material           | steel           |
| Finish             | black coated    |
| Torque             | 1.92 - 2.26 N.m |
| Note               | type 1          |
| Weight (g)         | 17 g            |
| A (length)         | 38.6 mm         |
