

CHARNIERE INV. INOX AVEC GAGES CIRCLIPS A VISSER/SOUDER

85-7-2206

Peso (g)	52 g
----------	------

Technical drawing of a mechanical part, likely a shaft or pin, showing dimensions and a cross-section. The drawing includes a side view and a cross-sectional view. The side view shows a cylindrical component with a total length of 75. A central section has a length of 60, and a smaller section within that has a length of 36. A cross-section at the bottom shows a circular hole with a diameter of $\varnothing 5$. A small detail view at the top left shows a curved surface, possibly a fillet or a chamfer, with a dimension line indicating its radius.

Technical drawing of a mechanical part showing two views: a front view (top) and a side view (bottom). The front view shows a rectangular block with a central slot and two circular features. The side view shows the block's profile with a height dimension of 78 and a width dimension of 20.

Technical drawing of a vertical mechanical component. The drawing shows a side view of a cylindrical body with a central vertical axis indicated by a dashed line. At the top, there is a flange with a central hole and a curved pipe-like structure extending from it. At the bottom, there is a smaller cylindrical section with a pointed tip. A dimension line on the right indicates a total height of 78 units.
